Discuss IT Topic: Now that we are less than a week away from having a new Presidential elect, why has this race for the White House been so different than past elections? What issues have occurred throughout the election process and how has technology effected the voting process? (This question should have multiple answers). How do you think this election has changed the way people view the media? (Radio, Television, and the Internet) Explain...

Response: Please make sure all grammar, spelling, indentation, and punctuation is correct.

The election process has changed because, one the candidates that have made it this far aren't the best option for ether of them to be our leader for our country. Donald Trump has a mouth that doesn't show that he's really serious about this election, he uses words that shouldn't be used in a professional setting and he does offend people, he just doesn't show that he's professional enough. Hillary Clinton has committed crimes that she hasn't been charged for both her herself and the Clinton organization. She has killed people and has not cared on what people said, she hasn't yet shown she is fit to be our president. She has made big mistakes than she can't deny to even though she has denied to most of the things she's been accused for.
