Discuss IT Topic 5: Battle of the Animation Studios

Discuss IT Topic: Over the next couple of years, many design studios will be releasing and rereleasing new films based on previously scene characters and storylines. Star Wars, although it dates back to the 1970's is going back in time in the story, but they are more popular today than ever, even though the story has been gone back and forth numerous times. From Wonder Women, to three different versions of the Hulk, Spider-Man, and Bat-Man, these films keep coming out every year. Why are these films so popular? Are the movie goers not worried about reboots? Could it be the effects and realism of the characters? Explain...

Response: Please make sure all grammar, spelling, indentation, and punctuation is correct.

When films are remade new story lines start and some mysteries are answered. Prequels answer all the questions we had and sequels answer all the mysteries we had. Everyone that likes and follow the story lines of these movies love to see all these new movies come out. Though reboots might change a story line completely but it does give a new line to follow and it can be a fun adventure to see this new version of this character. Even though some characters might and will change they will always be the characters we know and love, no matter how much they change their story.
